Release Readiness Report

Recommendation: NO GO

Document Version 1.0.0 · 2026-08-10

Briktra Construction Management Platform

1. Is the application ready?

No. Core Tenant admin smoke is usable, but multi-role security posture is not release-ready. Field roles cannot complete primary job stories without project assignment, and privileged surfaces are exposed.

2. Can it be deployed?

Not as a full multi-role production release. A Tenant-only limited deployment may continue with known issues documented; Manager/Supervisor/Employee enablement must wait for P0 RBAC and logout revoke fixes.

3. Blocking Issues

- EMP-ISSUE-001 [Critical] Employee — Employee can access restricted route: Open Reports
- EMP-ISSUE-002 [Critical] Employee — Employee can access restricted route: Company Settings
- EMP-ISSUE-004 [Critical] Employee — Employee can access restricted route: Subscription
- EMP-ISSUE-005 [Critical] Employee — Employee can access restricted route: Users / Tenant Admins
- EMP-ISSUE-008 [Critical] Employee — Employee can access restricted route: Create Tenant / Company
- EMP-ISSUE-009 [Critical] Employee — Employee can access restricted route: Super Admin
- MGR-ISSUE-002 [Critical] Manager — Manager can open Create Tenant form (RBAC bypass)
- MGR-ISSUE-003 [Critical] Manager — Manager can view Tenant Admins directory (Role Management)
- MGR-ISSUE-004 [Critical] Manager — Manager Super Admin shell shows "Welcome, Super Admin"
- SUP-ISSUE-002 [Critical] Supervisor — Supervisor can open Create Tenant form
- SUP-ISSUE-004 [Critical] Supervisor — Supervisor can view Tenant Admins (Manage Users)
- SUP-ISSUE-005 [Critical] Supervisor — Supervisor Super Admin shell shows "Welcome, Super Admin"

4. Critical Issues (Open)

- EMP-ISSUE-001 — Employee can access restricted route: Open Reports
- EMP-ISSUE-002 — Employee can access restricted route: Company Settings
- EMP-ISSUE-004 — Employee can access restricted route: Subscription
- EMP-ISSUE-005 — Employee can access restricted route: Users / Tenant Admins
- EMP-ISSUE-008 — Employee can access restricted route: Create Tenant / Company
- EMP-ISSUE-009 — Employee can access restricted route: Super Admin
- MGR-ISSUE-002 — Manager can open Create Tenant form (RBAC bypass)
- MGR-ISSUE-003 — Manager can view Tenant Admins directory (Role Management)
- MGR-ISSUE-004 — Manager Super Admin shell shows "Welcome, Super Admin"
- SUP-ISSUE-002 — Supervisor can open Create Tenant form
- SUP-ISSUE-004 — Supervisor can view Tenant Admins (Manage Users)
- SUP-ISSUE-005 — Supervisor Super Admin shell shows "Welcome, Super Admin"

5. Known Issues (limited-release risk acceptance)

- TEN-ISSUE-004 — Language Selection not on Flow Sheet
- TEN-ISSUE-011 — Stock card raw API path
- Deep Flow Sheet CRUD not completed for any role

6. Recommended Fixes (Order)

- Role-based route + API guards for admin surfaces
- Revoke access JWT on logout (all roles)
- Force Login on authed deep links when session empty
- Fix /expenses and /dailyNotes routing
- Assign Supervisor & Employee to projects; retest attendance
- Filter nav/quick actions by role

7. Release Recommendation

GO

Not recommended

GO WITH RISKS
Tenant-admin-only ops with explicit risk acceptance

NO GO
SELECTED for full multi-role release

FINAL: NO GO

8. Sign-off
