Briktra UI / UX Review

Experience Quality Findings

Document Version 1.0.0 · 2026-08-10

Briktra Construction Management Platform

1. Purpose

Consolidated UI and UX findings from Tenant, Manager, Supervisor, and Employee PROD regressions. Management-facing priorities with developer-ready acceptance criteria.

2. All UI Issues

- EMP-ISSUE-010 [P1] Employee session persists after logout (UI deep link) — Any authenticated-only route redirects to Login when no valid session

****Flow Sheet:** Profile !' Log**

- MGR-ISSUE-003 [P0] Manager can view Tenant Admins directory (Role Management) — Manager receives 403 / deny UI; no Tenant Admins CRUD

Đ

****Flow Sheet:** Restricted — Role Management**

- MGR-ISSUE-004 [P0] Manager Super Admin shell shows "Welcome, Super Admin" — Manager never sees Super Admin shell; immediate deny without admin nav

Đ

****Flow Sheet:** Restricted**

- MGR-ISSUE-005 [P1] Manager can access Subscription Plans (should be denied) — Manager cannot open subscription/billing management screens

Đ

****Flow Sheet:** Restricted — Subscrip**

- MGR-ISSUE-006 [P1] Manager can open Company Settings (Complete Company Profile) — Only tenant_admin can edit company settings; manager denied

Đ

****Flow Sheet:** Restricted — Company**

- MGR-ISSUE-008 [P2] Tenants list deny still exposes Retry FAB for Manager — On deny, no create FAB; Retry does not spam forbidden calls

Đ

****Flow Sheet:** Restricted — Tenants**

- SUP-ISSUE-001 [P1] Supervisor can open Create Project (RBAC / policy) — Supervisor cannot create projects by default; UI hides Add Projects if denied

****Flow Sheet:** Creat**

- SUP-ISSUE-003 [P2] Supervisor Tenants list — data denied but FAB still shown — On deny, no create FAB; clean permission-only UI

****Flow Sheet:** Restricted — Manage Tenants**

****Mo**

- SUP-ISSUE-004 [P0] Supervisor can view Tenant Admins (Manage Users) — Supervisor cannot open Tenant Admins or create admins

****Flow Sheet:** Restricted — Manage Users**

*

- SUP-ISSUE-005 [P0] Supervisor Super Admin shell shows "Welcome, Super Admin" — Never show Super Admin shell unless role is super_admin

****Flow Sheet:** Restricted — Super Admin**

- SUP-ISSUE-006 [P1] Supervisor can access Subscription Plans — Supervisor cannot open subscription/billing screens

****Flow Sheet:** Restricted — Manage Subscriptio**

- SUP-ISSUE-007 [P1] Supervisor can open Company Settings — Only tenant_admin edits company settings

****Flow Sheet:** Restricted — Delete/Edit Company**

****Modul**

- SUP-ISSUE-010 [P2] Supervisor Profile displays wrong email address — Profile email equals login identity / auth/me email
- **Flow Sheet:** Profile
- **Module:** Profile
- SUP-ISSUE-012 [P2] Supervisor Dashboard exposes admin Quick Actions beyond role tasks — Dashboard quick actions match supervisor role matrix / Flow Sheet
- **Flow Sheet:** Dashboard
- **
- TEN-ISSUE-003 [P2] ISSUE-003 — API signature requirement (UPDATED) —
- TEN-ISSUE-004 [P2] ISSUE-004 — Language selection gate not documented on Login flow path — - Flow Sheet includes Language Selection page with English/Tamil/Hindi cards and Change Language but
- TEN-ISSUE-011 [P2] ISSUE-011 — Stock card shows raw API path text instead of material metadata — - No API URLs or log fragments visible on stock cards
- Subtitle shows intended business fields only

3. All UX Issues

- EMP-ISSUE-013 [Employee] Employee nav exposes Reports, Wallet, and Stock modules
- MGR-ISSUE-003 [Manager] Manager can view Tenant Admins directory (Role Management)
- MGR-ISSUE-007 [Manager] Manager #/expenses deep link redirects to Attendance
- MGR-ISSUE-008 [Manager] Tenants list deny still exposes Retry FAB for Manager
- SUP-ISSUE-001 [Supervisor] Supervisor can open Create Project (RBAC / policy)
- SUP-ISSUE-003 [Supervisor] Supervisor Tenants list — data denied but FAB still shown
- SUP-ISSUE-004 [Supervisor] Supervisor can view Tenant Admins (Manage Users)
- SUP-ISSUE-009 [Supervisor] Supervisor deep links for Expenses / Daily Notes remapped to Document Wallet
- SUP-ISSUE-012 [Supervisor] Supervisor Dashboard exposes admin Quick Actions beyond role tasks
- TEN-ISSUE-004 [Tenant (Admin)] ISSUE-004 — Language selection gate not documented on Login flow path
- TEN-ISSUE-008 [Tenant (Admin)] ISSUE-008 — Dashboard and Projects redirect to Login

4. Screens — Before !' After

Super Admin (non-admin) (P0)

Before: Welcome Super Admin chrome

After: Hard deny / redirect

Create Tenant (P0)

Before: Form loads for Mgr/Sup/Emp

After: Permission denied

Employee nav (P1)

Before: Reports / Wallet / Stock

After: Home + Profile only

Expenses route (P1)

Before: Remaps to Attendance/Wallet

After: True Expenses module

Stock card (Tenant) (P2)

Before: Raw API path text

After: Human label / hide debug

Supervisor Profile (P2)

Before: Wrong email vs login

After: Canonical email

Tenants deny (P2)

Before: Error + Create FAB

After: Error without create FAB

Language Selection (P2)

Before: Not in Flow Sheet path

After: Documented in Flow Sheet

5. Suggestions

- Reuse Employee directory lock pattern for all restricted modules.
- Role-specific left navigation and Dashboard Quick Actions.
- Empty states for unassigned Supervisor/Employee projects.
- Logout confirm must clear session and force Login on deep links.
